Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Specification

1. Applicant's response has overcome the objection to the specification.

Claim Objections

2. Claim 1-6, and 8-10 are objected to because of the following informalities: claim 1, lines 4-7, the claim language can be improved by amending lines 4-7 as follow: "a plurality of OFDM demodulators each configured to receive a time domain baseband signal generated based on the high frequency signal and outputting a frequency domain baseband signal". In addition, line 11, recites "a first phase shifter coupled to a second antenna of each antenna group" such claim language suggests only one "phase shifter is coupled to the second antenna of each antenna group while in fact a phase shifter is required for each antenna group. The claim should be amended to clearly convey that a respective phase shifter is coupled to the second antenna of each antenna group.
3. Claim 2, is awkwardly written and should be amended so as to improved the claim langue
4. Claim 3, line 3, "an A/D" should be replaced by "a respective". In addition, in lines 7-10, the claim recites a first and second A/D converters. Such a claim language suggests that the first and A/D converters are provided in addition to the A/d converter recited in lines 2-3 whiles in fact the A/D converters recites in lines 7-10 are part of the A/d converter recited in lines 2-3.

Art Unit: 2611

5. Claim 4, line 2, and line 4, respectively, before "based", "generated" should be inserted.
6. Claim 8, "baseband signal of the time domain" should be replaced by "the time domain baseband signal". The same comment applies to claim 9 and 10, respectively.

Appropriate correction is required.

Conclusion

7. This application is in condition for allowance except for the formal matters noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

8. Claims 1-6, 8-10 would be allowable if rewritten or amended to overcome the claim objection(s) set forth in this Office action.
